

Be a One-Percenter!

There are $7 \times 24 = 168$ hours in one week. One percent of that amount is 1.68 hours, or 1 hour and 40 minutes. Abortion is the most horrific violence taking place on earth today and the children who are being killed deserve our utmost effort to end it. I hereby pledge that I will devote no less than one percent of my time every week to fighting abortion.
